

Need A COVID Test?

Here's how to get a COVID test on campus:

1. Take a deep breath and pause.
2. Mask up.
3. Schedule a COVID test. You have two options:
 - a. If you have **symptoms**, schedule a test and/or medical appointment at UHS.
Phone: 734-764-8320
Email: uhs-apptschd@med.umich.edu
 - b. If you have **no symptoms**, but you had a **close, prolonged exposure** to someone with COVID:

Fully vaccinated? Register for U-M COVID-19 Community Sampling and Tracking Program (CSTP), then schedule a test at a CSTP location.

Unvaccinated or Vaccination in Progress? Schedule at UHS.

Reminder: if you've been exposed, the best time to test is 3-7 days after the exposure.
